PROFESSIONAL SUMMARY

Senior Full-Stack Engineer with 4.5+ years of experience building high-concurrency microservices, RESTful APIs, and responsive web applications in fast-paced startup environments.

TECHNICAL SKILLS

Languages & Frameworks: Python, Flask, FastAPI, JavaScript, React.js, TypeScript

Databases: PostgreSQL, Redis, MySQL

DevOps & Cloud: Docker, Kubernetes, AWS (EC2, S3, RDS), Git, GitHub Actions, CI/CD

Architecture: REST API design, Microservices, Asynchronous Task Queues

WORK EXPERIENCE

Senior Software Engineer | CloudTech Solutions

Jan 2022 - Present

? Architected and maintained scalable backend services using Python and Flask serving over 15 million API requests daily.

? Engineered optimized relational database schemas in PostgreSQL with index caching, reducing latency by 40%.

? Containerized distributed applications using Docker and orchestrated deployments on AWS ECS and Kubernetes.

? Integrated Redis caching layers for session management and low-latency data retrieval.

Full-Stack Developer | DevPulse Interactive

Jun 2019 - Dec 2021

? Developed responsive user dashboards using React.js and modern JavaScript.

? Built RESTful API endpoints in Python to power customer-facing SaaS features.

? Implemented automated CI/CD pipelines using Git and GitHub Actions for zero-downtime releases.

EDUCATION

Bachelor of Science in Computer Science

University of California, Berkeley (2015 - 2019)
