Education

Kongu Engineering College B.E. Computer Science and Design	2024–2028
Montfort Matric Hr. Sec. School, Ariyalur Class XII (HSC)	2024 Mark Percentage: 74%

Area of Interest

Graphic Designer, UI/UX

Technical Skills

Languages: C, Python, HTML, CSS, SQL

Frameworks: React.js, Node.js

Databases: MySQL, MongoDB

Game Development: Unity, Unreal Engine 5

Design Tools: Blender, Figma, Canva

Projects

Digital Twin for Astronaut Training Python — React — Node.js — MySQL

- Built a Digital Twin platform for astronaut training through virtual simulations.
- Reduced dependency on expensive physical equipment using interactive training modules.
- Developed frontend and backend workflows for simulation and training management.

VR Companion for Astronauts Unity — VR

- Created a VR environment to reduce loneliness during long-duration space missions.
- Designed immersive and interactive virtual environments.
- Improved user engagement through realistic VR experiences.

Historical Heritage Exploration Game Unreal Engine 5

- Developed a 3D educational game to explore Indian history interactively.
- Built realistic environments using Unreal Engine 5 and Megascans assets.
- Integrated exploration, storytelling and mission-based gameplay.

Coin Balls Unity — C#

- Developed a 2D rolling ball game while learning Unity.
- Implemented movement, collision detection, collectibles and level progression.
- Players collect all coins to unlock the next level.

CinePick Movie App Mockup Figma

- Designed a Netflix-inspired movie streaming application.
- Created responsive UI using Auto Layout and reusable components.
- Included downloads, watchlist, recommendations and intuitive navigation.

Technical Achievements

- Secured Second Prize in Ideathon Competition.
- Participated in Smart India Hackathon (SIH).
- Developed projects in Game Development, Virtual Reality, UI/UX and Full Stack Development.
- Active participant in technical events, workshops and hackathons.

Leadership & Activities

- Served as the Industrial Visit (IV) Coordinator.
- Led a multidisciplinary team during national-level hackathons.
- Collaborated in the design and development of Virtual Reality (VR) applications.
- Passionate about Game Development, Virtual Reality and UI/UX Design.
