EDUCATION

Kongu Engineering College <i>Bachelor of Engineering in Computer Science and Design (CGPA: 8.22/10)</i>	Perundurai, Tamil Nadu <i>Expected Graduation: 2028</i>
Venkateswara Vidyalaya Mat Hr Sec School <i>Higher Secondary Certificate (HSC) (Percentage: 91%)</i>	Avinashi, Tamil Nadu <i>2024</i>
Venkateswara Vidyalaya Mat Govt Hr Sec School <i>Secondary School Leaving Certificate (SSLC) (Percentage: 90%)</i>	Avinashi, Tamil Nadu <i>2022</i>

PROJECTS

Eventify <i>MERN Stack, MongoDB, Node.js, Express.js, React.js</i> GitHub - Developed a full-stack MERN application for managing event budgets, tracking expenses, and streamlining real-time admin approval workflows. - Designed RESTful APIs using Express.js and integrated MongoDB for efficient CRUD operations and structured data management. - Built reusable React.js components with responsive layouts to simplify budget tracking and expense management.	2026
MERN Authentication System <i>Node.js, Express.js, MongoDB, JWT, Brevo SMTP</i> GitHub - Built a secure authentication system using Express.js and MongoDB with JWT-based authentication and authorization. - Implemented secure authentication using bcrypt password hashing, JWT access tokens, HTTP-only cookies, and Brevo SMTP for email verification and password recovery. - Designed protected REST APIs to secure user authentication workflows and role-based access control.	2026
Bank Management System <i>Java, Object-Oriented Programming (OOP)</i> GitHub - Developed a console-based banking application in Java supporting account creation, deposits, withdrawals, balance inquiries, and fund transfers. - Applied core object-oriented programming principles including encapsulation, inheritance, polymorphism, and abstraction to build a modular application. - Implemented a modular object-oriented architecture using reusable classes and methods to improve maintainability.	2025
Hand Gesture Controller <i>Python, OpenCV, Computer Vision</i> GitHub - Developed a computer vision application using OpenCV to recognize hand gestures through a webcam. - Integrated gesture recognition with system media controls including play, pause, and volume adjustment. - Optimized real-time frame processing to achieve responsive and low-latency gesture recognition.	2025

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, C
Frontend: HTML, CSS, React.js
Backend: Node.js, Express.js
Databases: MongoDB, MySQL
Developer Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA
Computer Science Fundamentals: Data Structures and Algorithms, OOP, DBMS, REST APIs
Design Tools: Figma, Adobe Illustrator (Basic)

CERTIFICATIONS & ACHIEVEMENTS

Certification: Salesforce Certified Agentforce Specialist (2025)
Winner – BIT Hackathon: Secured Winner position at the hackathon organized by Bannari Amman Institute of Technology (2025).
Paper Presentation: Presented a technical research paper at the symposium conducted by KPR Institute of Engineering and Technology (2025).
Smart India Hackathon: Participated in the internal college selection round at Kongu Engineering College and proposed a web-based architecture for event budget management (2025).
